**Sunday, January 27th, 2018:** 1, 2, 3, 4, 5 - that's how many days are left in January. Crazy right! It feels as if we were just saying hello to 2019. If you're lucky enough to get weekday turns in, then you have 5 potential days of skiing left in January. If not, today is the day! Add one more January ski session to that memory bank.

There'll be WSW winds today ranging from 10-16 mph, a high of 25 degrees and mostly cloudy skies. A mild day weather wise, - easy like a Sunday mornin'.
